

Catch-Up Premium Plan

Whitby Heath Primary School

Summary information

School	Whitby Heath Primary School	
Academic Year 2022-23	No of pupils 414	School Led Tutoring Grant £7,250

Guidance

Current context:

As part of the Department for Education's (DfE)'s education recovery plan, the Secretary of State for Education is providing financial assistance to eligible local authorities, for their maintained schools, and academy trusts. This is in accordance with section 14 of the Education Act 2002, in the form of the school-led tutoring grant for the 2021 to 2022 academic year.

This grant will give schools and academy trusts the flexibility in determining how best to provide tutoring intervention to support catch-up for lost education due to the coronavirus (COVID-19) pandemic.

In this academic year, 2022 to 2023 schools and academy trusts will be provided with a grant to cover 60% of the £18 unit cost.

Schools and academy trusts will need to factor in increasing contributions to school-led tutoring from other budget sources such as pupil premium funding over the 3 years.

Leaders at Whitby Heath Primary School are committed in ensuring all catch up funding is used effectively to make the greatest difference to children's outcomes after the COVID19 lockdowns in 2020 and 2021. Children and young people across the country have experienced unprecedented disruption to their education as a result of coronavirus (COVID19). Those from the most vulnerable and disadvantaged backgrounds will be among those hardest hit. The aggregate impact of lost time in education will be substantial, and the scale of our response must match the scale of the challenge.

The catch-up premium has been designed to mitigate the effects of the unique disruption caused by coronavirus (COVID19). The Government has committed to further funding being made available for 2022/23 academic year following further partial closures of schools. It will not be added to schools' projections in calculating future years' funding allocations and funding from School Led Tutoring Grants will be used to further support Pupil Premium and Disadvantaged Pupils in school.

Leaders recognise that inevitably there will have been an impact on all of our pupils regardless of age, academic ability or social background. During bubble closures, self isolation and partial school closures in 2020, 2021 and Spring 2022, our pupils had access to remote learning through our use of

the Seesaw platform. In addition, some of our families had no access to technology during the partial school closure. These families were provided with devices and technology support them.

Despite the hard work from staff, pupils and parents and carers, there have been varying levels of engagement from pupils throughout partial school closures and it is important to recognise that our pupils will not have received the same quality of education, consistently and as thoroughly, as if they had been taught in school during this time. Hence, the main aim of the catch up strategy at Whitby Heath Primary School is to raise the attainment of all pupils to close the gap created by COVID19 school closure.

Barriers to learning have been identified across the school, as well as in specific year groups, some of which are identified below. The school's curriculum contingency planning will ensure all pupils are taught any missed content from previous units of work from the last academic year. However, staff will continue to deliver age related content and make provisions for missed learning naturally through current units of work wherever possible.

Primarily, using the catch up funding available, school will be using additional teachers to target identified children across all year groups. This will be enhanced through additional intervention programmes being delivered with planned CPD for staff focused on our Rainbow Recovery Curriculum to ensure a sustained response and to ensure attainment is improved long term. Some money will also be used for developing children's resilience and well-being so that they can strengthen their learning behaviours ensuring that they will become successful learners long term.

Leaders have considered many factors carefully in deciding how to allocate and spend the Catch-Up Premium. We have used the government recommended 'Covid-19 Support Guide for Schools', published by the Education Endowment Foundation (EEF) as well as the DfE School -Led Tutoring Guidance, to help identify the best strategies, based on long-term research, that will enable us to achieve the most positive outcomes for our pupils.

Use of Funds	EEF Recommendations
<p>Schools should use this funding for specific activities to support their pupils to catch up for lost teaching over the previous months, in line with the guidance on curriculum expectations</p> <p>Schools have the flexibility to spend their funding in the best way for their cohort and circumstances.</p> <p>To support schools to make the best use of this funding, the Education Endowment Foundation (EEF) has published a Coronavirus (COVID19) support guide for schools with evidence-based approaches to catch up for all pupils. Schools should use this document to help them direct their additional funding in the most effective way.</p>	<p>The EEF advises the following:</p> <p>Teaching and whole school strategies</p> <ul style="list-style-type: none"> ☐ Supporting great teaching ☐ Pupil assessment and feedback ☐ Transition support <p>Targeted approaches</p> <ul style="list-style-type: none"> ☐ One to one and small group tuition ☐ Intervention programmes ☐ Extended school time <p>Wider strategies</p>

- ☐ Supporting parent and carers
- ☐ Access to technology
- ☐ Summer support

Identified impact of lockdown

Maths	<p>Specific content has not been covered in the level of depth required due to lockdowns, leading to gaps in learning. Children have an appetite for Maths but gaps in learning have happened due to foundations not being securely built upon due to lockdowns. Recall of basic skills has suffered - children need recapping on number facts, times tables and calculation strategies linked to the four operations. Pupils missed the regular, daily practise of key arithmetic skills and so are less secure or show gaps in their knowledge of prior years' calculations. This is reflected in formative and summative assessments.</p>
Writing	<p>Children lost essential practising of writing skills. Grammar, punctuation, sentence composition, handwriting and spelling specific knowledge has suffered, leading to lack of fluency in writing. Those who have maintained writing throughout lockdowns are less affected, however, those who have not maintained regular, quality writing have had to work additionally hard on writing stamina and improving their motivation due to the lack of fluency in their ability to write.</p>
Reading	<p>Children accessed reading during lockdowns more than any other subject. This is something that was more accessible for families and required less teacher input. However, children are less fluent in their reading and the gap between those children that read widely and those children who don't is now increasingly wide. Gaps in early reading skills and phonics have also been affected. The bottom 20% of readers have been disproportionately impacted.</p>
Non-core	<p>There are now significant gaps in knowledge - whole units of work have not been taught meaning that children are less able to access pre-requisite knowledge when learning something new and they are less likely to make connections between concepts and themes throughout the curriculum. Children have also missed out on the curriculum experiences e.g. trips, visitors and powerful curriculum moments as well as developing their cultural capital.</p>

Learning Behaviours	Children's learning behaviours, including their self confidence, ability to work independently, willingness to cooperate, interact and learn with peers, problem solving skills, enthusiasm about learning and personal responsibility, are key drivers to their success as learners. The adjustment from remote learning to in school learning and back again has negatively impacted some children's previously positive learning behaviours and gaps in these behaviours have to be addressed to secure confident learning in all areas of the curriculum.

Intended outcomes	
1.	At the end of Key stage 1 and 2, proportions of disadvantaged pupils meeting ARE in writing, reading and Maths, to be at least in line with national.
2.	Secure high standards achieved in reading, writing and maths at the end of key stage and year
3.	Percentage of pupils meeting expected standard in phonic screen check to be at least in line with national.
4.	Attainment for all children is at least in line with national data for GLD.

Success Criteria					
Criteria	Evidence	Autumn evaluation	Spring Evaluation	Summer Evaluation	
All teachers continue to deliver the school's intent for reading, writing and maths and implement relevant interventions to support disadvantaged pupils to meet ARE in reading, writing and maths.	Internal data Pupil progress meetings IDSR/ASP/SPS				
All teachers to use termly assessment data from Educater to target children for intervention to ensure % of pupils achieving expected and higher standards in reading, writing and Maths across school increased from baselines on entry in September 2022.	Internal data Pupil progress meetings IDSR/ASP/SPS				
Assessment data shows percentage of pupils meeting expected standard in phonic screen check is at least in line with national figures.	Internal data Phonic screen checks Autumn 2021 and Summer 2022 IDSR/ASP/SPS				

Progress in phonics is strong from baselines in September 2022.					
Monitoring evidence shows all children have the opportunity to revisit and embed skills across all areas of learning, within a coherent and ambitious EYFS curriculum so that attainment for all children is at least in line with national data for GLD.	Internal data IDSR/ASP/SPS				

	Planned expenditure			Total budgeted cost:		£41,609	
	Action	Intended outcome	What is the evidence and rationale for this choice?	How will you ensure it is implemented well?	Staff lead	When will you review implementation?	Impacts
Quality of teaching for all	Embed the Whitby Heath Way Curriculum alongside the Rainbow Recovery Curriculum to address gaps in learning through the use of additional teachers and class teachers to deliver interventions to groups of pupils across all year groups. Pupil progress meetings in Autumn	Teachers have a very clear understanding of what gaps in learning remain and use this to inform assessments Attainment for pupils in line with national for reading,	Small group tuition can give up to 4 months impact.
